Subject: Industrial Insulation Systems, Inc. (IIS)

To Whom It May Concern:

It has been my pleasure to, on numerous occasions, have had IIS under contract with Heinz Frozen Food Company for various insulation and freezer upgrade projects. They have exhibited a high quality of workmanship, flexibility and timeliness that have helped make many projects successful in the Ontario, Oregon Facility.

In managing the Engineering and Maintenance Departments at the facility, we maintain substantial attention to detail. IIS has fulfilled those expectations, having performed rigorous work in upgrading existing freezer tunnel insulation systems as well as various piping and other insulation projects. Furthermore, if asked, I would certainly plan to utilize IIS in the future as needs arise and within Company guidelines and policies. Their costs have been competitive and their work product and ethics beyond satisfactory. IIS presents themselves and performs with a high degree of professionalism in challenging applications and environments. Their crew and supervision has been reasonable and accommodating, their products appropriate and their installations high quality.

If necessary, I would be happy to elaborate on any given project or the performance of IIS in general for Heinz. Please feel free to contact me if I can be of assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Carl B. Krueger, Jr." with a stylized flourish at the end.
