April 7, 2009

To Whom It May Concern:

Industrial Insulation Systems, Inc., performed duties of insulating 42" Truss Gallery Conveyors, for CEI/AGNICO Eagle Hill, LTD., Meadow Bank Project. This work was done on Yanke Machine Shop, Inc. property. Yanke Machine Shop, Inc., fabricated the 42" truss conveyor's. After the truss conveyor was fabricated, it was turned over for insulating.

The installation of the insulation and then covered with metal siding; this was done with a work crew that handled themselves professionally. The work was performed in a timely manner and when complete, looked excellent.

Conveyor Engineering and Yanke Machine Shop, Inc., both were pleased with the work performed by Industrial Insulation Systems, Inc. and would recommend this company to anyone.

Sincerely:

Ron Bernard
Project Manager
Yanke Machine Shop, Inc.
